

Healing God, give strength and courage to \_\_\_\_\_ as she/he patiently endures the suffering and pain of her/his illness. Take from her heart all painful anxiety. Help her to place herself in the arms of your loving providence, trusting in your compassionate, tender love.

Blessed Mary and all the saints, gather round us as we pray for our sister/brother. May we reach out to her/him with compassion and support, bringing her/him comfort. Through your intercession may we all look forward to being united with you in God's presence. Amen.
